MATRIMONIAL NOTES

KENNEDY-BELL.

—Miss Dannie Kennedy and Mr. Russell Bell, of near his city, were married yesterday afternoon at Cynthiana. The bride, who is a daughter of Mr. and Mrs. Ed Kennedy, has been a student at the Bourbon Female College, and is a very attractive and popular young woman. The groom is a prosperous young farmer and a member of a prominent family of this county. The couple was accompanied to Cynthiana by the bride's two sisters, Misses Willie and Florence Kennedy, the groom's brother, Mr. Joseph Bell, Miss Lola McLone and Mrs. J. C. Sidwell. The ceremony was performed at 3 o'clock, at the residence of the officiating minister, Rev. E. R. Klouse.

KENNEDY-NORTON.

—Mrs. Hanson Kennedy of Carlisle, announces the engagement of her daughter, Marguerite, to Mr. James William Norton, of Alabama. The wedding will be a beautiful event of the 24th of this month. The news is of much interest here where both young people are popular and well-known. The bride is the daughter of the late Judge Hanson Kennedy, Circuit Judge in Nicholas county district. She is charming and attractive and a favorite with all who know her. Mr. Norton is formerly of Nicholas county.

Sounds Reasonable.

"As I understand it," said a gentleman, "oleomargarine is made of beef fat." "You are undoubtedly right," said his companion. "I should think that the manufacturers would make it of goat fat." "Why?" "Because the goat is a natural butter."—Detroit Free Press.

SURPRISING CURE OF STOMACH TROUBLE.

When you have trouble with your stomach or chronic constipation, don't imagine that your case is beyond help just because your doctor fails to give you relief. Mrs. G. Stengel, Plainfield, N. J., writes: "For over a month past I have been troubled with my stomach. Everything I ate upset it terribly. One of Chamberlain's advertising booklets came to me. After reading a few of the letters from people who had been cured by Chamberlain's Tablets, I decided to try them. I have taken nearly three-fourths of a package of them and can now eat almost everything that I want." For sale by all dealers.

THE KING OF ALL LAXATIVES.

For constipation, headaches, indigestion and dyspepsia, use Dr. King's New Life Pills. Paul Mathulka, of Buffalo, New York, says they are the "King of all laxatives. They are a blessing to all my family and I always keep a box of them at home." Get a box and get well. Price 25c. Recommended by L. Oberdorfer and W. T. Brooks.

Courtesy Is Love of Man.

Courtesy. This is love in society, love in relation to etiquette. "Love doth not behave itself unseemly." Politeness has been defined as love in trifles. Courtesy is said to be love in little things. And the one secret of politeness is to love. Love cannot behave itself unseemly.—Henry Drummond.

UNSIGHTLY FACE SPOTS.

Are cured by Dr. Hobson's Eczema Ointment, which heals all skin eruptions. No matter how long you have been troubled by itching, burning or scaly skin humors, just put a little of that soothing antiseptic, Dr. Hobson's Eczema Ointment, on the sores and the suffering stops instantly. Healing begins that very minute. Doctors use it in their practice and recommend it. Mr. Alleman, of Littleton, Pa., says: "Had eczema on forehead; Dr. Hobson's Ointment cured it in two weeks." Guaranteed to relieve or money refunded. All druggists, or by mail, Price 50c. Pfeiffer Chemical Co., Philadelphia and St. Louis.

Bearer of Great Name a Menial.

Somebody has discovered on the electoral roll of the city of Melbourne a gentleman named Oliver Cromwell, who by occupation is described as a "theater packer." The duty of the "packer" is to squeeze as many people as possible into the pit and gallery. There have been complaints in Melbourne lately about his ungentle methods and his unchivalrous handling of women.

FOR CUTS, BURNS AND BRUISES.

In every home there should be a box of Bucklen's Arnica Salve, ready to apply in every case of burns, cuts, wounds or scalds. J. H. Polanco, Delvalle, Tex., R. No. 2, writes: "Bucklen's Arnica Salve saved my little girl's cut foot. No one believed it could be cured." The world's best salve. Only 25c. Recommended by L. Oberdorfer and W. T. Brooks.

Warm Enough?

While coaching a class of children for a little play, the teacher told the boys that in the third act they would have to wear their heavy overcoats, as that would be the snow scene. After a short silence a little fellow about seven years old raised his hand and said: "Teacher, father can't finish my overcoat in time because he works late; but will it be all right if I wear my heavy underwear?"

PERMIT REFUSED THE NEW TOBACCO WAREHOUSE.

By vote of five to two in the Council last night a permit to construct an iron clad building to be used as a tobacco warehouse to cost approximately \$30,000, was voted down.

At the last meeting of the Council, a new company in the process of organization, presented a petition to the Council for a permit to construct the building, but owing to a serious objection being raised by a number of the adjoining property owners, the matter was referred to the Improvement Committee of the Council to report at the meeting last night. The report of the Committee being filed a vote was taken, with the above result.

The new company had planned to erect a fire-proof building on a site selected in Barns Addition and in the vicinity of the property of the Bourbon Tobacco Warehouse Company. Options on several pieces of property had been secured but further action was deferred until the Council could act upon the permit.

The firm of E. F. Spears & Sons which recently suffered the loss of its mammoth grass seed cleaning plant, applied to the Council for a permit to construct upon the site of the old building a modern structure of concrete and steel. It was stated by the petitioners that the machinery used in cleaning grass seed would be equipped with the latest improved dust collectors, which it is said will disperse with one of the greatest objections to the plant in its present location. To the granting of a permit an objection was filed by a number of the residents but when put to a vote it carried.

A right of way along the route of the new sewer system, plans for meeting of the Council, have been secured from the private citizens along the route and all that now remains to insure an early beginning upon the improvement is the permission of the Louisville & Nashville railroad to extend the service through its property.

Permission had been asked from the head officials of the company in Louisville, and the matter was referred to Superintendent W. H. Anderson, who has been empowered to use his judgment in granting the city the right. It was reported at the meeting that Mr. Anderson would be ready within the next few days to file the conditions of the permit with the Mayor and Improvement Committee of the Council. Civil engineers will go over the property before final action will be taken by the officials of the railroad company, but it is probable the request of the Council will be granted without any delay.

Where the Calculator Scores.

The best tradition requires that whenever a lightning calculator tells how many seconds there were in the life of Methuselah some one must shout: "Wrong! You've muffed it this time. I've figured the whole thing out, and here are the figures." Whereupon the lightning calculator receives an armful of papers, glances at the first few sheets, looks up, grinning and chuckles: "Just as I thought. You've forgotten the leap years."

London's Primitive Water Pipes.

London's water supply formerly came through wooden pipes. These were of the simplest construction, formed of the stems of small elm trees, drilled through the center and cut in lengths of about six feet, one end being tapered so as to fit into the adjoining pipe. The wooden pipes, of which at one time more than 400 miles were in use, leaked considerably, decayed rapidly, burst during frosts and were always troublesome. It was not until 1830 that they began to be superseded by cast iron, and a quarter of a century later some of the old wooden pipes were still in use.

Fail to Appreciate Coffee.

Although the greater part of the world's coffee now comes from South America, there are some states in that country where it is scarcely used.

When the Mind is Ripened.

No man can learn what he has not preparation for learning, however near to his eyes is the subject. A chemist may tell his most precious secrets to a carpenter, and he shall be never the wiser—the secrets he would not utter to a chemist for an estate. . . . Our eyes are holden that we cannot see things that stare us in the face until the hour arrives when the mind is ripened; then we behold them and the time when we saw them not is like a dream.—Emerson.
